Transition*

**Research Network Consolidation
Webinar
17 June 2021**

The Landscape and Energy Transition: The Case of Wind Turbines in France and Germany

15.00-15.15: Welcome & Introductory remarks

- Cathrin Zengerling (Jun.-Prof. Dr., LL.M. Univ. of Michigan), The junior professorship “Transformation to Sustainable Energy Systems”, University of Freiburg
- Melis Aras (Dr.) UMR 7363 SAGE, University of Strasbourg

15.15-16.15: Presentation of research projects

- Emmanuelle Santoire, Ph.D. Student in Geography, ENS of Lyon, UMR 5600 CNRS EVS. “The use of geo-legal methods for the study of energy matters.”
- Charly Vallet, Ph.D. Student in Public Law, University of Pau. “RES generation by local governments a driver for better landscape acceptance?”
- Sanjana Mulay, Master Student, Master of Environmental Governance, University of Freiburg “Multi-level policy support for decentralized solar systems in large cities.”

16.15-17.00: Networking & Drafting future research agenda, with the participation of:

- Philippe Hamman (Prof.) – UMR 7363 SAGE, University of Strasbourg
- Élisabeth Lambert (CNRS Research Professor), UMR 7363 SAGE, University of Strasbourg
- Michael Frey (Prof.) Hochschule Kehl University of Applied Science
- Jean-Baptiste Ortlieb (Ph.D.) UMR 7363 SAGE, University of Strasbourg & Envirhus, Universiteit Antwerpen
- Romain Mauger (Dr.) Groningen Centre of Energy Law and Sustainability, University of Groningen
- Ines Gavrilut, FeLis, University of Freiburg
